Stronger connections. Safer futures.

Young people are growing up connected through digital spaces. By staying informed, we can help ensure these spaces remain positive and safe, reducing the risk of online influences that may lead to harmful choices.

By working together, we can help youth make informed choices online and offline.

**Small conversations
today can lead to safer
choices tomorrow.**

Three tips to reduce youth luring and exploitation:

- 1 Stay curious about the platforms your child enjoys and explore how they can connect with others.

- 2 Keep conversations open about who your child meets and chats with online.

- 3 Explore your child's friends list together and have conversations about their online connections.

Let's work together to help youth thrive - online and offline.
